

WREN Airbrush and Accessories

Features:

- Single Acting Style
- Simple to Operate
- Easy to Maintain
- Versatile

■ Binks' Wren airbrushes are single-action style. Air and fluid are delivered simultaneously. The fluid delivery is controlled by rotating the fluid nozzle to allow more fluid to be siphoned into the airstream.

The Wren is an ideal first airbrush. Simple to operate and easy to maintain, the Wren produces excellent results with a minimum of practice. The Wren's versatility has made it the airbrush of choice for hundreds of thousands of airbrush users around the world.

Wren airbrushes have the capability to spray inks, stains, and dyes; thinned lacquers and enamels; and ceramic underglazing and thinned overglazes.

■ Wren Outfits

Set includes airbrush, 1/4, 1/2, and 2 fluid. oz. Color Bottle Assemblies and 59-60 (6 ft.) of lightweight vinyl hose with connections, packed in a attractive, clear plastic case.

Model No. 59-10006

Set with "B" airbrush.

Wren Set
Model No. 59-10006

Regulator/Extractor

Model No. 59-105

Regulates air pressure to the Wren airbrush. Filters compressed air and removes oil, water, dirt, and other impurities before it reaches the airbrush. Protects against marred finishes from water in air lines. A must in areas where high humidity is prevalent. Gauge indicates 0-60 PSI. Unit handles up to 30-SCFM. Filter is rated at 5 microns. Inlet and outlet is 1/4 NPT (f).

Fluid Controls

Model No. 59-10

Wren Fluid Control for "B" airbrush.

Air Hose Assemblies

1/8" I.D. with connection for Wren airbrushes and 1/4 NPS(f) connection for compressor or extractor hook-up.
