

DESICCANT AIR DRYING SYSTEM

3-Stage Desiccant Design

*Model Number
234401*

Clean, dry air for all air-operated equipment

FEATURES

- Multi-stage design removes dirt, water and oil particles down to .01 microns
- Desiccant changes color from blue to pink when fully saturated
- Built-in sight glass allows easy monitoring of desiccant bead color change
- Desiccant can be regenerated for reuse
- Coalescer pressure drop indicator
- Pre-assembled 3 stage system

BENEFITS

- Clean, dry air assured with color changing desiccant, desiccant sight glass and coalescer pressure drop indicator
- Clean, dry air all day, every day
- No need to disassemble to determine the status of desiccant
- Reduce total cost of ownership
- Automatic pressure drop indicator turns red when coalescer requires maintenance
- Ships complete so you're up and running faster

INDUSTRIAL

PROVEN QUALITY. LEADING TECHNOLOGY.

Technical Specifications

Part Number	Description	Air Inlet	Air Outlet	Air Flow Capacity	Max Operating Pressure
234402	Stage 1 – Air filter with auto drain, removes water and contaminants down to 5 microns	1/2" npt(f)	1/2" npt(f)	108 CFM	175 psi (1.2 MPa, 12 bar)
234403	Stage 2 – Coalescer with auto drain, removes oil and sub-micronic particles down to .01 microns	1/2" npt(f)	1/2" npt(f)	35 CFM	175 psi (1.2 MPa, 12 bar)
234404	Stage 3 – Desiccant housing, removes uncondensed moisture	3/4" Reduced to 1/2" npt(f)	3/4" Reduced to 3/8" npt(f)	30 CFM	175 psi (1.2 MPa, 12 bar)
U22604	Self-relieving air regulator	3/8" npt(f)	1/4" npt(f)	100 CFM	160 psi (1.2 MPa, 11 bar)

Ordering Information

234401 Desiccant Air Drying System

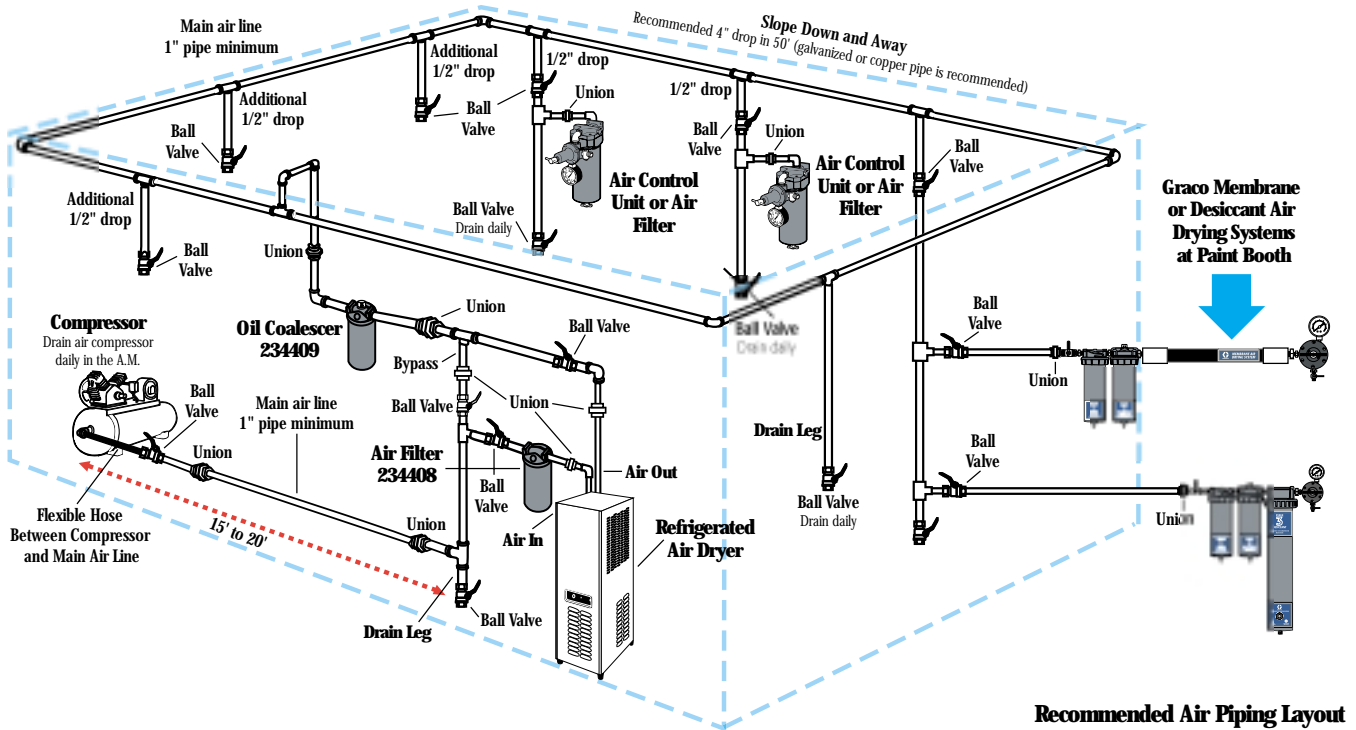

118502 Replacement Desiccant 4-pack (1 gal each)

Dimensions

Complete System: 19.75" x 7.5" x 26.5" (50.17 cm x 19.05 cm x 67.31 cm)

Instruction Manual

309921

Recommended Air Piping Layout
